8/54203/0 Issue 1

IMPORTANT: THESE INSTRUCTIONS SHOULD BE READ CAREFULLY AND RETAINED FOR FUTURE REFERENCE

Important Safety Advice

When using electrical appliances, basic precautions should be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

If the appliance is damaged, check immediately with the supplier before installation and operation.

Do not use this appliance in the immediate surroundings of a bath, shower or swimming pool.

Do not use outdoors.

This appliance must not be located immediately above or below a fixed socket outlet or connection box.

WARNING : The appliance carries

the Warning Symbol indicating that it must not be covered or has a Do not cover label. Do not cover or obstruct in any way the heat outlet grille located underneath the appliance Overheating will result if the appliance is accidentally covered. Do not place material or garments on the appliance, or obstruct the air circulation around the appliance, for instance by curtains or furniture, as this could cause overheating and a fire risk.

In the event of a fault unplug the heater. Unplug the appliance when not required for long periods. The supply cord must be placed on the right hand side of the heater away from the heat outlet underneath the appliance.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or ack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children shall not play with the appliance. Cleaning and user maintenance shall not be made by Children.

Children should be kept away unless continuously supervised. Children shall not turn on/off the appliance. Children shall not plug in, regulate and clean the appliance or perform user maintenance.

The appliance must be positioned so that the plug is accessible.

Although this appliance complies with safety standards, we do not recommend its use on deep pile carpets or on long hair type of rugs. If the supply cord is damaged it must be replaced by the manufacturer or service agent or similarly qualified person in order

to avoid a hazard.

CAUTION: In order to avoid a hazard due to inadvertent resetting of the thermal cut-out, this appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by the utility.

CAUTION - Some parts of this product can become very hot and cause burns. Particular attention has to be given where children and vulnerable people are present.

General

Unpack the heater carefully and retain the packaging for possible future use, in the event of moving or returning the fire to your supplier.

The fire incorporates a flame effect, which can be used with or without heating, so that the comforting effect may be enjoyed at any time of the year. Using the flame effect on its own only requires little electricity.

Before connecting the heater check that the supply voltage is the same as that stated on the heater.

Please note: Used in an environment where background noise is very low, it may be possible to hear a sound which is related to the operation of the flame effect. This is normal and should not be a cause for concern.

Electrical Connection

WARNING - THIS APPLIANCE MUST BE EARTHED

This heater must be used on an AC ~ supply only and the voltage marked on the heater must correspond to the supply voltage.

Before switching on, please read the safety warnings and operating instructions.

Controls - see Fig. 2

Three switches provide a choice of heat settings. The appliance is in standby mode when the mains lead is plugged in. This is indicated by the red neon behind the flame effect screen. The two selector switches are in the ON position when the side with the markings on (i.e. I, or II) are pushed in.

Push button switch 1 Controls the electricity supply to the heater and flame effect.

If both selector switches 2 and 3 are in the OFF position, the product works on flame effect only.

Selector switch 2 (I)	Provides 750W heat output
Selector switch 3 (II)	Provides 1500W output with switch
	2 also pressed.

Thermostat (T) - see Fig. 3

In order to maintain a certain room temperature, set the controller to 'max.'. Operate the appliance at full power until the required room temperature is reached. Set back the thermostatic controller until the appliance switches off with an audible "click". This temperature will be kept almost constant by the thermostatic control switching on and off automatically.Please note that the appliance can only be switched on when the thermostat setting is higher then the room temperature.

Remote control - see Fig. 4

The maximum range of use is ~ 5metres.

Warning: It takes time for the receiver to respond to the transmitter.

Do not press the buttons more than once within two seconds for correct operation.

Battery Information - see Fig. 4

1. To activate the remote control remove the battery isolation strip, which is used to ensure your remote control reaches you fully charged.

2. To replace the remote control battery, turn over the remote control, and follow the diagram embossed on the remote control 3. Only use CR2025 or CR2032 size of batteries.

WARNING - KEEP BATTERIES OUT OF REACH OF CHILDREN

1. Swallowing may lead to serious injury in as little as 2 hours or death, due to the chemical burns and potential perforation of the oesophagus.

2. If you suspect your child has swallowed or inserted a button battery immediately call the 24-hour Poisons Inforation Centre on 13 11 26 (in Australia) or 0800 764 766 (in New Zealand) for fast, expert advice.

3. Examine devices and make sure the battery compartment is correctly secured, e.g. that the screw or other mechanical fastener is tightened. Do not use if the compartment is not secure. 4. Dispose of used button batteries immediately and safely. flat batteries can still be dangerous

Tipping Restraint - see Fig. 1

A WARNING: FALLING OR TIPPING APPLIANCES CAN CAUSE INJURY OR DEATH OF YOUNG CHILDREN, PLEASE ENSURE CHILDREN DO NOT CLIMB, HANG OR STAND ON THIS PRODUCT.

A WARNING: THE APPLIANCE IS PROVIDED WITH A TIPPING RESTRAINT, THIS RESTRAINT IS NOT A SUBSTITUTE FOR **PROPER ADULT SUPERVISION. THIS RESTRAINT MAY PROVIDE** PROTECTION AGAINST TIPPING FURNITURE. DO NOT ALLOW CHILDREN TO CLIMB ON FURNITURE. FAILURE TO DETACH THIS RESTRAINT BEFORE MOVING FURNITURE MAY RESULT IN INJURY AND DAMAGE.

This product is provided with a 'Tipping Restraint Kit' as shown in Fig 1, to prevent the product accidentally tipping over. Fitting Instructions are supplied with this kit please follow these instructions carefully.

Thermal Safety Cut-out

The built-in overheat cut-out switches off the appliance

Glen Dimplex Australia Pty Ltd. 1340 Ferntree Gully Road, Scoresby, VIC 3179, Australia	Glen Dimplex Australasia Ltd. 35 Harris Road, East Tamaki, Auckland New Zealand

sales@glendimplex.com.au

Ph[.] 09 274 8265

Ph[.] 1300 556 816 Fax: 1800 058 900 automatically in the event of a fault! Switch off the appliance or disconnect the mains plug from the socket.

Remove any obstructions which may have caused the overheating. After a short cooling down phase, the appliance is ready for use again! If the fault should occur again, see your local dealer!

WARNING: In order to avoid a hazard due to inadvertent resetting of the thermal cut-out, this appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by the utility.

Maintenance

WARNING: ALWAYS DISCONNECT FROM THE POWER SUPPLY BEFORE ATTEMPTING ANY MAINTENANCE.

Light Emitting Diode

This fire is fitted with LED (Light Emitting Diode) lamps. These LED lamps are maintenance-free and should not require replacing during the life of the product.

Cleaning

WARNING - ALWAYS DISCONNECT FROM THE POWER SUPPLY BEFORE CLEANING THE HEATER.

For general cleaning use a soft clean duster - never use abrasive cleaners. The glass viewing screen should be cleaned carefully with a soft cloth.

DO NOT use proprietary glass cleaners.

To remove any accumulation of dust or fluff the soft brush attachment of a vacuum cleaner should occasionally be used to clean the outlet grille of the fan heater.

It is possible to clean the inner glass and logset by removing the outer glass panel. To remove the outer glass, remove the 4 screws holding the grille in position, (see Fig.5), remove the grille and lift clear the outer glass.

Refit the outer glass in reverse of above.

WARNING: do not operate the product without the grille and outer glass in position as this may effect the operation of the heater.

Recycling

At the end of the electrical products useful life it should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice in your country.

After Sales Service

Should you require after sales service or should you need to purchase any spares, please contact the retailer from whom the appliance was purchased or contact the service number relevant to your country on the warranty card.

Please do not return a faulty product to us in the first instance as this may result in loss or damage and delay in providing you with a satisfactory service. Please retain your receipt as proof of purchase.
