

The Oil Free column heater is a new and improved designed portable radiator using new technology which is better for the environment. The benefits of removing oil allows a room to heat faster and efficiently, with electricity used converted into deliverable heat instead of waiting for the oil to heat first. The turbo fan allows for instant heat and less fins, reducing the carbon footprint.

- Oil Free and Lightweight
- 2 heat settings
- 30% more effective than oil*
- Up to 8 times faster warm up than oil*
